

12 JUL 1978

MEMORANDUM FOR THE RECORD

SUBJECT: Telephone Conversation with Charles Duncan,  
11 July 1978

We took up the list I had provided to him and Secretary Brown on the 30th of June concerning the unresolved issues on Title I. We went down each item and agreed to the suggested resolution I had made on my list with one small exception. I had proposed declassifying the title of a reconnaissance activity; Defense objects to that. I said I would agree to use the wording for reconnaissance activities that is in the unclassified Executive Order, though I would want to reopen that if we made further declassifications about reconnaissance activities themselves. It is my understanding this leaves unresolved two issues, Level I or Level II for the DCI, and statutory or non-statutory provision for the IOB.
